

NEW NON-SELECTIVE GROUP 14 FOR PRE-SEED AND PRE-EMERGENT BURNDOWN BEFORE SELECT CROPS AS WELL AS FALLOW AREAS

INSIGHT® Liquid SC is a new non-selective contact herbicide used in a pre-seed burndown application in spring wheat, field corn, and soybean. INSIGHT is registered for use in non-crop and fallow. Powered by Tergeo®, INSIGHT delivers ultra-fast burn down of emerged weeds when and where it's needed.

KEY BENEFITS

- Delivers ultra-fast and consistent results under different spring application conditions before seeding.
- The only Group 14 with grassy weed activity including control of wild oat.
- Alternate mode of action for the control of weeds resistant to Groups 1,2,4 and/or glyphosate.
- Convenient, low application rates.
- Compliments any glyphosate application adding faster control when and where it's needed.
- Mix with your choice of MSO surfactant.

TECHNICAL INFORMATION

ACTIVE INGREDIENT:

- Tiafenacil – Group 14

MODE OF ACTION

- Non-selective contact PPO inhibitor.
- Readily absorbed by green plant tissue leading to cell membrane destruction.

SYMPTOMS

- Chlorotic tissue may develop within hours after application and death of susceptible weeds occur within a few days.

APPLICATION TIMING:

- Pre-seed or pre-emergence in spring wheat or corn.
- For soybean, apply 14 days before seeding.
- Apply to susceptible weeds when young and actively growing, but before they exceed 12.5 cm (5 inches).
- Ground Application only. Do not apply by air.

USE RATES:

- 148 ml/ha (60 ml/ac). 1 jug will treat 40 acres.
- INSIGHT must always be applied with an MSO surfactant at a rate of 1% v/v for optimum burndown activity.

CROPS

Spring Wheat
Field Corn
Soybean
Fallow and Non-crop

WEEDS

Wild Oat
Volunteer Canola
Kochia
Russian Thistle
Velvetleaf
Wild buckwheat
Lamb's-quarters
Redroot pigweed
Prickly lettuce*
Waterhemp*

*Suppression Only

TECHNICAL INFORMATION

SUPPORTED TANK MIXES:

- Glyphosate (360 g ae/L) – 1.25 to 2.5 L/ha (0.5 to 1 L/ac) used in burndown applications)

WATER VOLUME:

- Minimum 40 L/ac (10 gal/ac)

MIXING INSTRUCTIONS

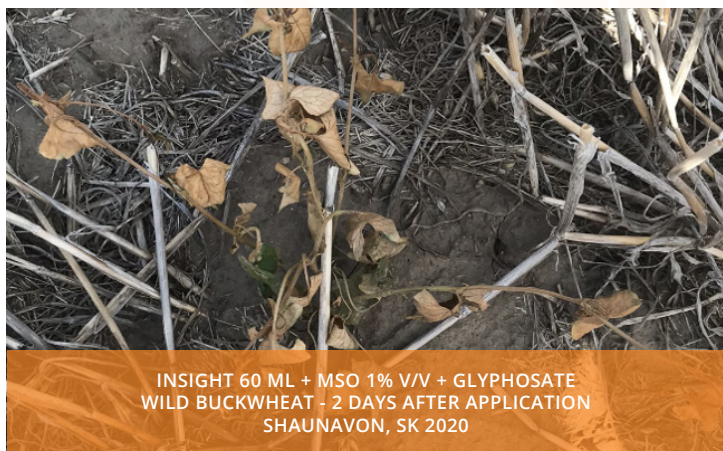

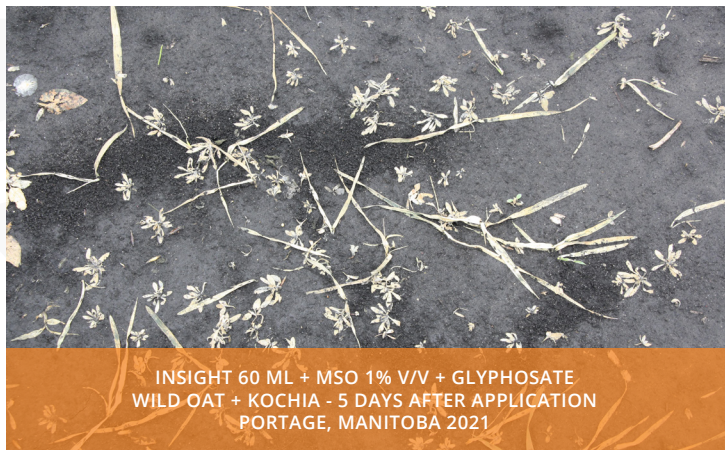

1. Ensure the spray system is free of residues from previous applications.
2. Fill the tank 1/2 full of clean water.
3. Turn on the tank agitation system.
4. Add the required amount of Insight Liquid SC Herbicide and continue agitation until the Insight Liquid SC Herbicide is completely dispersed.
5. Add the required amount of glyphosate while continuing agitation.
6. As the tank is filling, add the required spray adjuvant.

RE-ENTRY PERIOD INTERVAL:

- 12 hours

PACKAGING:

- 2.4 L jug
- 6 x 2.4L per case
